

hifrog - Bug #5225

SAT examples are terminate with "killed" when using the right/correct parameters

31/05/2017 09:49 - Karine Even Mendoza

Status:	New	Start date:	31/05/2017
Priority:	Normal	Due date:

Target version:		Spent time:	0.00 hour
Description			
For example: hi-bench/challenge-bench/sv-comp16/c/bitvector/s3_clnt_3_false-unreach-call.BV.c.cil.c --logic qfcuf --unwind 6 --no-partitions --theoref --no-itp --force --bitwidth 64 hi-bench/challenge-bench/sv-comp16/c/bitvector/s3_clnt_1_false-unreach-call.BV.c.cil.c --logic qfcuf --unwind 8 --no-partitions --theoref --no-itp --force --bitwidth 16 Two of the SAT examples I looked at. I'll try to add more if I'll find later on today. Thanks!			

History

More examples:

```
./hifrog --no-itp ../../../../hi-bench/challenge-bench/sv-comp16/c/bitvector/s3_clnt_2_false-unreach-call.BV.c.cil.c --logic qfcuf --unwind 11 --no-partitions --theoref --no-itp --force --bitwidth 32
```
